

JSP index.jsp

Get all products

```
@WebServlet("*.do")
public class FrontController extends HttpServlet {

    } else if (URI.endsWith("products.do")){
        if(METHOD.equalsIgnoreCase("get")) {
            ProductDao productDao = new ProductDaoJdbcImpl();
            List<Product> products = productDao.getProducts();
            req.setAttribute("products", products);
            req.getRequestDispatcher("list.jsp").forward(req, resp);
            return ;
        }
    }
}
```

JSP list.jsp

```
<:forEach var="product" items="${products}">
    <tr>
        <td>${product.id}</td>
        <td>${product.name}</td>
        <td>${product.price}</td>
    </tr>
</forEach>
```

| ID | Name | Price |
|----|----------------|----------|
| 1 | iPhone 16 | 89000.0 |
| 2 | Sony Bravia | 279000.0 |
| 3 | Logitech Mouse | 789.0 |
| 4 | Tata Play | 8900.0 |
